

# SR 528

## PROJECT DEVELOPMENT & ENVIRONMENT (PD&E) STUDY

ISSUE 1

APRIL 2004

The Florida Department of Transportation (Department) is performing a Project Development and Environment or PD&E Study for the 23 mile long segment of SR 528 (Bee Line Expressway) between SR 520 and the new Port Canaveral Terminal B Interchange. During the PD&E Study, the Department will evaluate alternative ways to widen SR 528 and provide other improvements needed to serve the ever-increasing traffic demand.

The PD&E Study is one of the earliest phases of the overall project development program. During the Study, the Project Team will develop alternative concepts and evaluate the benefits and impacts of these alternatives with input from local agencies and the public.

Residents, business owners, travelers and other interest groups will have several opportunities to review project information and participate in the decision making process. The public will be invited to attend public meetings, and Study Team members will be available to attend small group or community meetings to review project specific information as needed throughout the study.

For up-to-date project information and a schedule of upcoming meetings, please visit our web site at [www.sr528pde.com](http://www.sr528pde.com) or contact the Public Involvement Coordinator, Ms. Melaina Petit, at the number provided below.

## PROJECT DETAILS

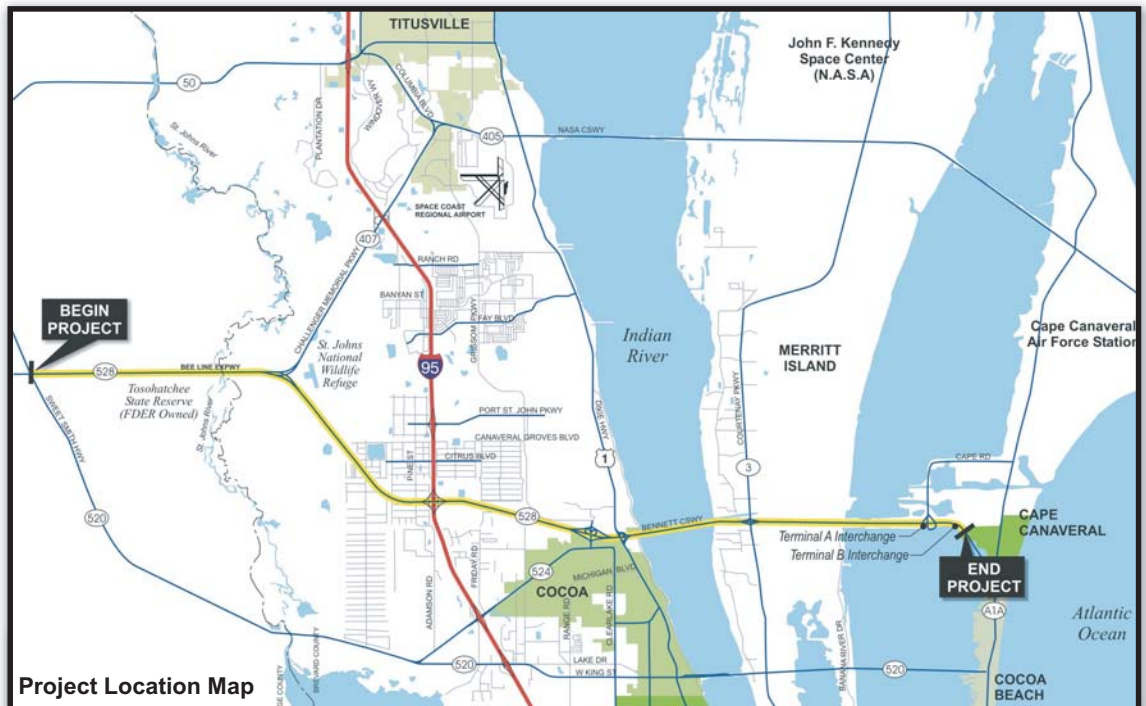

### Limits:

From SR 520 to Terminal B Interchange

Orange and Brevard Counties

### Length:

Approximately 23.5 miles

### Do You Have a Question?

If you have questions about the study or would like additional information, please contact:
